**FURNITURE
MACHINES**

Finishing lines

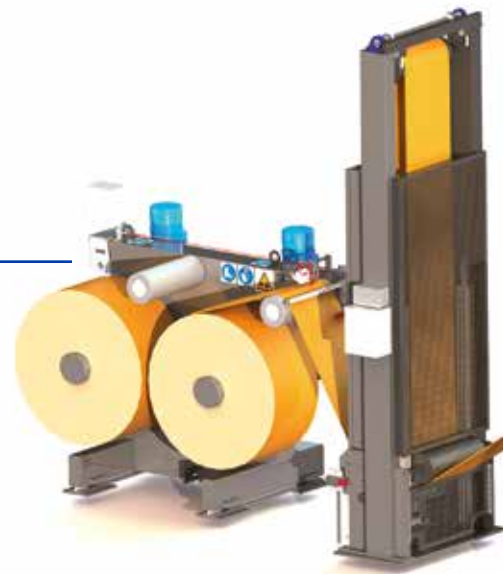

FOR EDGE BANDS

The **finishing lines** business is in a constant growth and always requiring **more refined pieces of furniture**. The production lines for this kind of business are gaining more and more attention in our area. The finishing of edge bands, made of polymers to imitate wood, passes through processes like **printing, lacquering, embossing and priming**, essential processes for furniture production.

Primer & embossing Line

SPECIALIZED MACHINES FOR PRIMER
AND EMBOSSING APPLICATIONS

The specialization in roll lacquering, using technologies like **Semi-Flexo, Rotogravure Synchro or Reverse**, made COS.T.A. gain a prestige position as supplier of priming systems, whole lines, or single machineries to be included in already existing lines.

TECHNICAL SPECIFICATIONS FINISHING LINES

Width of machine	200 ÷ 900 mm
Working width	100 ÷ 700 mm
Mechanical speed	0 ÷ 30 m/min

PROJECTS FOR
Advanced Technologies
